Education

Jamia Hamdard

B.Tech in Computer Science — CGPA: 8.4

Sept 2023 – May 2026

New Delhi, India

Gurutegh Bahadur Polytechnic

Diploma in Automobile Engineering — CGPA: 8.6

July 2019 – May 2022

New Delhi, India

Projects

Gifting Website – Full-Stack E-Commerce Platform

May 2025

- Tech: MERN Stack (MongoDB, Express.js, React.js, Node.js), CSS, Axios
- Built a complete e-commerce web application for personalized gifts, hampers, and other items.
- Developed an admin dashboard to manage products, track and view customer orders, and update inventory in real-time.
- Implemented user authentication, product browsing, cart functionality, order placement, and secure checkout.
- Designed a responsive frontend with category filters, search functionality, and product detail pages.
- Ensured scalability and seamless UX with optimized API handling and modular backend architecture.

Debate Bot – AI-Powered Voice Debate Platform

April 2025

- Tech: Python, Streamlit, Google Gemini API, Web Speech (SpeechRecognition + pyttsx3), TextBlob, LangDetect
- Developed an intelligent, voice-enabled debate bot allowing real-time AI debates in English and Hinglish.
- Integrated Google Gemini API for natural language generation with dynamic persona-based responses (Polite, Sassy, Sarcastic, etc).
- Enabled voice input via SpeechRecognition and dynamic accent-based TTS using pyttsx3 with language detection.
- Designed interactive Streamlit UI with debate settings, scoring, and style customization features.

Wanderlust – Full-Stack Travel Platform

Jan 2025

- Built a full-stack platform for discovering and reviewing unique places.
- Implemented user authentication and CRUD operations for listings.
- Integrated user authentication with secure login/sign-up functionality.
- Tech: JavaScript, Node.js, Express.js, MongoDB, Render.

Experience

SecOrigin Technologies

Oct 2024 – Mar 2025

Software Engineer Intern

Remote

- Built secure and scalable web applications using MERN Stack tailored to cybersecurity solutions.
- Built RESTful APIs to interact with cybersecurity logs and alerts.
- Integrated third-party security APIs ensuring data compliance.

Technical Skills

Languages: Java, SQL, Python, JavaScript

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Jupyter

Other Skills: REST API Development, Responsive Web Design, Data Structures and Algorithms

Additional Information

Certifications: Delta Web Development Certification – Apna College (MERN stack, Redux, Git, GitHub)

Languages: English, Hindi

Hobbies and Interests: Exploring Machine Learning, Deep Learning, and Data Science
